

Tell us about your operation and we'll size and price your managed toolstore. Answer what you can — best estimates are fine; we confirm everything at a short scoping review.

Thank you for your interest — we're excited to work with you.

HOW TO COMPLETE THIS FORM

- This is a fillable PDF — type straight into the fields. Best estimates are fine; we confirm everything at a short scoping review.
- You don't need every answer. The three drivers — People, Products and Distribution points (Section 2) — are what size your store.
- When you're done, save the form and email it to sierra.sales@sierraacuity.com.au. The last page auto-builds the file name for you.
- Prices are indicative and set from your answers, and confirmed at scoping. Nothing here is an order or a commitment.

1 Your organisation

Who we are quoting for, and where.

Company / organisation

Site / operation name

Contact name

Role / title

Email

Phone

Industry

Town / region

State

No. of sites

2 The three drivers

These help us size your store. Best estimates are fine — we confirm at scoping.

People — active users

Headcount who will draw from the store

Product — SKUs under management

Distinct items held in the toolstore

Distribution points (total)

Total dispensing / access points

SKU guide (WA benchmark): Small ~150–500 · Medium ~500–1,500 · Large ~1,500–4,000 · Major hub ~4,000–10,000+. Roughly 60% consumables / 25% tools / 15% specialised equipment.

Dispensing / access formats — points per format

Enter how many points of each format you expect — best estimates are fine.

Attended counter

Coil / carousel

Locker

Weight cabinet

Weight open shelf

AI vision

3 What you are storing

Item mix and whether anything must be kept in-date to issue.

Item types (tick all that apply)

Consumables Hand & power tools Specialised equipment Returnable / high-value tools
Safety PPE

Safety PPE is always issued on a flat, unmetered tier — availability is never rationed by price.

Inspection / calibration required?

Gate issue on in-date status

Yes No

Items under inspection / calibration

If yes — count of serialised items

If you mark inspection required but leave the count blank or 0, we estimate the items under inspection at 10% of your SKUs so your inspection & calibration line is still catered for — the exact count is confirmed at scoping.

Inspection regimes (tick all that apply)

Calibration Test & tag Gas detector bump/cal Lifting & rigging Other

4 Existing acuitystore client?

If you already run a device with us, your existing spend is credited and your current line is re-based.

Already an acuitystore client?

Yes No

Current format(s) in use

e.g. PPE coil

Current points in use

Current total spend \$/month (ex-GST)

5 Commercial preferences

Term and procurement shape the price and the purchase-order structure.

Commitment term

Willing to fund set-up & configuration?

Yes No

Hardware ownership

Can you raise an annual baseline PO?

Yes No Unsure

Preferred billing

Budget cycle

e.g. Jul–Jun

Expansion plans in the next 6 months?

Helps us right-size and phase your rollout

6 Site & readiness

Qualification checks that decide what we can deploy and what onboarding will involve.

Site profile

Metro Regional Remote / FIFO

Hazardous / rated area?

Dust, temp, explosive atmosphere

Yes No Unsure

Master-data quality

Clean SKU list, unit weights, pack quantities

Connectivity

Power available at the store?

Yes No

Product distributor / supplier in place?

We stay product-neutral; you keep your suppliers

Yes No

7 Specialist / high-value applications

Optional. Turnaround & assurance applications are quoted separately, on the value they protect.

Tick all that apply

Turnaround document control Turnaround consumables store Tracked rental / gas monitors
 LOTO isolation control Weld-rod traceability Competency-gated issue

Anything else we should know? (turnaround dates, growth plans, constraints)

Save & send

As you fill in your company name above, the box below builds the file name for you — Date_Quote_Company. Save the PDF using that name, then email it to sierra.sales@sierraacuity.com.au.

Save this file as (auto-filled — copy it into your Save dialog)

What happens next — send us your completed form and we'll size your store from your answers, set your price, and come back with an indicative figure and a short, no-obligation scoping review. Your details are used only to prepare your quote and are handled per our Privacy Policy. All figures are confirmed at scoping; AUD, ex-GST. Any engagement is subject to Sierra Acuity's standard Terms & Conditions, provided with your quote.
